

USMAA SPORTS DAY- 2009

SIX-A-SIDE CRICKET TOURNAMENT - RULES SHEET

- 1) Each team is to consist of 6 players. The captain of the team is responsible for proper registration of the team and also to make sure the team is ready to start when called upon by a match coordinator.
- 2) In case of injury or other unforeseen circumstances a maximum of 1 substitute will be allowed per team as long as the substitute player is not a member of another team and hasn't already played a game.
- 3) Each side will bowl a maximum of six overs which includes a maximum of 2 overs per bowler. If a bowler is unable to finish an over through injury, then another player who has not completed his 2 overs can bowl the remaining deliveries.
- 4) No LBW's
- 5) Umpires decision is final.
- 6) No player may play for more than one team. It is the responsibility of the other team members of that team to make sure that this does not happen. If a player is found breaching this rule the entire team will be disqualified.
- 7) Scoring shall be done on the scoring sheet distributed by the umpire before each match. It is the responsibility of the batting side to provide a scorer and the **fielding side must have an observer** to avoid any disputes.
- 8) All players are expected to play fairly and behave in the true sportsmanlike manner during the games. The captain of each team should ensure that all players respect the rules.
- 9) **TIED MATCHES:**
When a match ends in a tie, the team which has lost fewer wickets to reach the score will be the winners. If both sides have been bowled out within the allotted overs, then the side which have taken fewer number of balls to reach the score will be winners. If a winner cannot be determined by these means, a toss of coin will determine the outcome of a match. BUT the final match of the tournament will have a 2 over per side hit out before the toss up (if the winners cannot be found by the first and second method).

All other normal cricket rules will apply
